DSS Ace - Release Notes Rev 2

DSS Ace v1.6.3 Mar 2, 2023

New features

- Norwegian language support

Corrections

- Characters that could not be displayed correctly because they were missing in the font have been added
- A second swipe of the same card is now handled correctly
- The buzzer feature has been updated with a new way to control the buzzer hardware
- The message displayed on unconfigured units has been updated

DSS Ace v1.5.2 Aug 31, 2021

Corrections

- Changing language is now applied without requiring a restart
- A situation where an access card could be read twice has been fixed
- English is now used as a fallback to ensure that faulty language settings do not prevent login

DSS Ace v1.4.2 Jun 10, 2020

New features

- Finnish language support
- Support for DESFire EV2
- Support for configuring the behaviour of the *All areas* option during arming and disarming

Corrections

- Alarm type is now shown correctly – in some cases it could previously show as *None*
- A fix has been added for an issue where a restored alarm could sometimes show up as an unknown alarm in the alarm list
- An issue where the *Change mode* option was shown when only one mode was available has been resolved
- Menu navigation using number keys has been improved in lists where the item names start with area number or section number
